Why Still Cry ye Peace, when ye hav Declared for War!

The fiendish purposes of the Radica leaders and the miserable tools which they hold in obeisance, in connection with the true men of the South-the upholders and subverting them to such a rule as ne'er true-minded men everywhere who will behold and reason upon their course. We entire subversion of the Constitution, the complete overthrow of free government, and in the end a military despotism following close upon the heels of anarchy .-These are the general and ultimate results if its terrible course is not checked and the ballot gives them, that checked it must and shall be. And towards the accom plishment of these ends and the subjugation of our people to a state worse than death itself, they are using all their efforts raising that cry, which originated with an imbecile, and is being re-echoed with the madness of despair from their press and at their meetings throughout our broad land -"Let us have peace "-they are openly and secretly, above board and at their secluded conclaves, declaring for war and urging the mad, ignorant masses at the South to a course of open insurrection and violence-virtually and in fact assuring them that the whites have no rights they are bound to respect.

Take this State alone. How is it with us here? For months past their delectable organ, the Raleigh Standard, has abounded with infamous, infidel and incendiary appeals to the negroes to rob, parent to the minds of the people everyoutrage and assassinate the white people, where. we desire our people to again read : "Did it never occur to you, ye gentlemen of education, property and character, ye men and especially ye women, who never received anything from these colored people but services, kindness and protection—did it never occur to you that these same people, who are so very bad, will not be willing to sleep in the cold when your houses are denied them, merely because they will not vote as you do? Did it never occur to you that if you, good people, maliciously determine that they shall have no shelter, they may determine that you shall have no shelter?"

Can they deny that the negro is plainly given to understand here that he ought to outrage our people-that it is his right, his duty to himself and children, if we exercise a power for our own protection clearly ours? The desired effect is to provoke our white people to violence and stir up a war -no matter how many whites and negroes, too, are sacrificed so that party ends shall

But our people have forborne-they did forbear. They have awaited calmly, determined that open violence should at first be leveled at them.
